

# THE QUALITY NETWORK

**MO) projects**  
MANAGING YOUR IDEAS

# Your project is in safe hands

MOprojects is a highly respected company with more than 100 years experience in bespoke joinery and interior fitting out. As a market leader we work internationally specialising in shops, stores, perfumeries, pharmacies, hotels, museums, restaurants, bars, leisure industry and exhibition stands. We have also built up an impressive portfolio of projects for discerning private clients.

Clients value our structured, transparent company ethos where we combine first class traditional craft skills, experienced project management and state-of-the-art computer and CAD services, including total control from our offices and workshops of every project. As a result, our clients are offered a highly competitive service and benefit from our exacting manufacturing standards and short lead-in times.

Our working procedures are clear and unique to us, but difficult for others to imitate.

We combine the exemplary performance and commitment of our work force in all manufacturing sectors, project management that is accountable at all times and stringent quality control with an integrated network of highperforming national and international partners. Every step in the planning, production and installation process is meticulously planned and overseen by an experienced project manager who acts as the contact person and has the flexibility and authority to handle any last minute alterations.

Under our direction and quality management system we are experts in bringing together in the shortest possible time different materials, manufacturing processes and services, and we source only from first class specialists and suppliers who adhere to our demanding standards of quality and punctuality.

## Shape the future

We undertake on-going market research and trend analysis communicating closely with leading interior architects, designers and product suppliers. We listen, predict and act, and shape the future by creating innovative solutions with our partners for our clients.

## Integrating materials

We relish working with many types of materials – wood, metal, glass and leather. Integrating them quickly and cost-effectively to form unique, eye-catching concepts is one of our specialities.

## Focus point

The „point of sale“ should be seen as a focus point with a clear, unambiguous message or logo drawing customers to the goods on display. Our bespoke designs, quality materials and exceptional craftsmanship will ensure your products are presented to their very best effect in an environment where customers feel comfortable and secure.

What more can you ask for?

## Spotlight

We strive to present your products in the right light and will develop your classic and modern design concepts to highlight and inspire.

## Home recipes for an exclusive kitchen

Every kitchen has its own style and needs unique furniture matched to the individuality of the premises. With our long and professional experience we know how to create the best kitchen and how to produce a distinctive focus within your house.

Created with design –  
building to your personal taste

Your home speaks for itself.

A culinary event needs an attractive and functional work place. Whichever style you prefer, modern, classic or elegant the kitchen must work for you. With high class and selected materials we can help to transform your ideas into reality.

# Welcome to more Individuality and Innovation

The offices we produce are presented in a very creative and inviting way.

With your wishes and our strategical solutions we are able to produce an innovative design to suit your individual needs.

We aim to create a stylish ambience that becomes an effective working place.

## Eye-catching

Would you like to improve and highlight your environment with a special atmosphere?

We can design a creative concept, unique to you, which will not fail to impress both in visual terms and in its quality.

## Times past

Many architectural details in modern buildings are manufactured using traditional skills, such as gold leaf work and English style furnishings, in order to reproduce exactly well-proportioned objects and decoration from times past. We have the know-how and nurture these old skills that continue to play an important part in design, architecture and building projects.

# Ideas and materials – the perfect partners

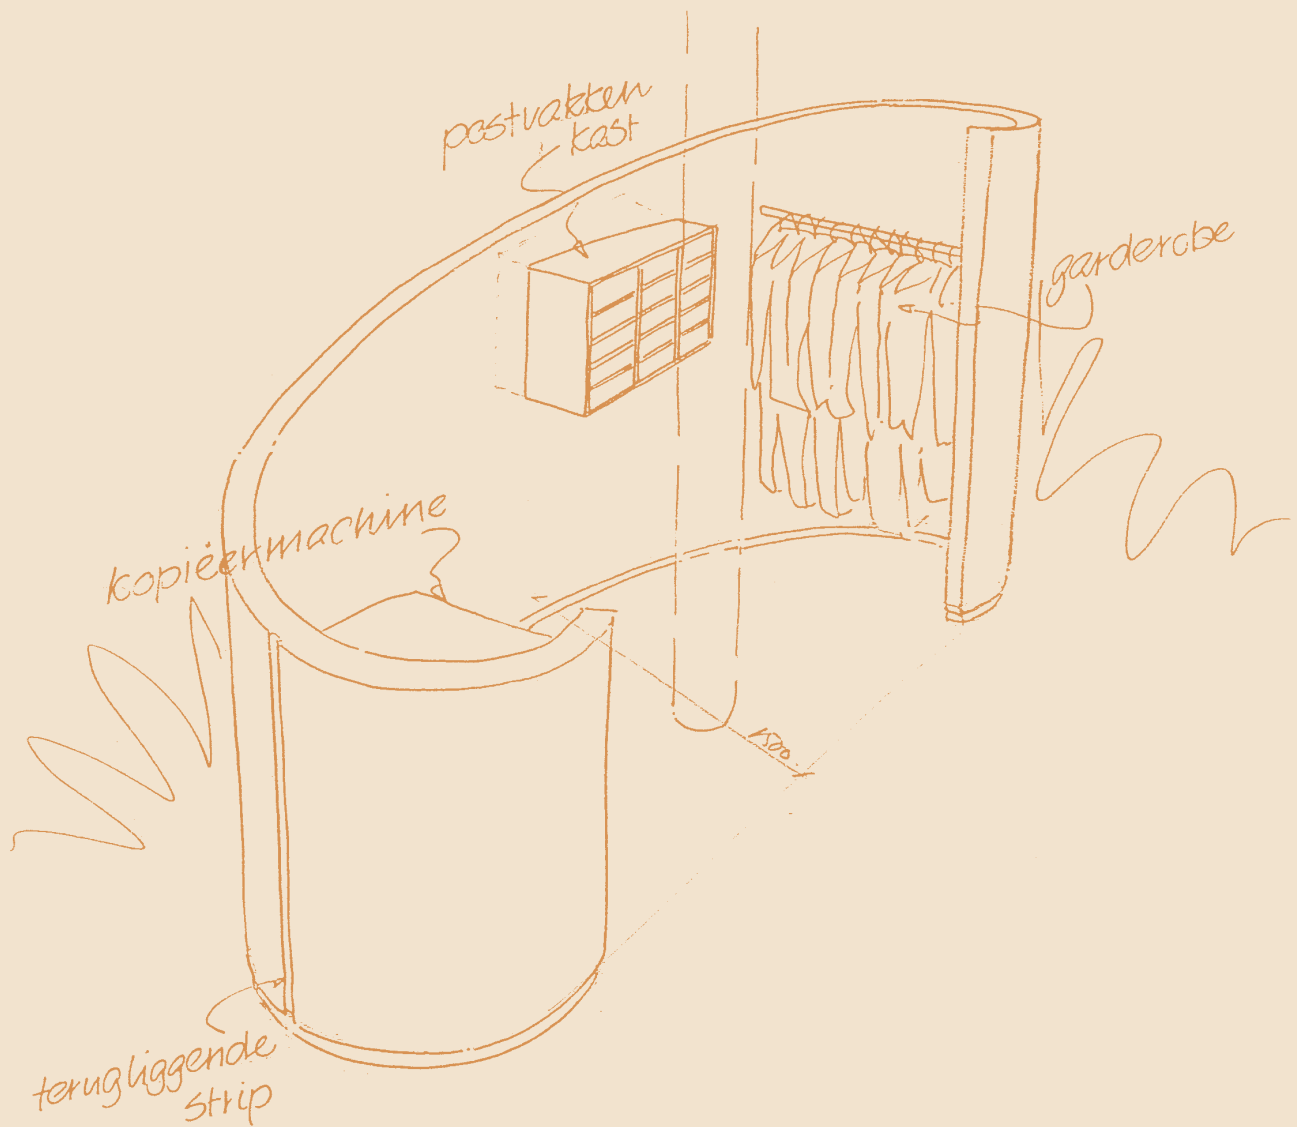

Innovative design is only feasible when the boundaries of creativity are pushed to the limit. Our experience, specialist knowledge and understanding of different materials and quality finishes enable us to bring exciting ideas to life that previously had seemed almost impossible. We deliver a consistently outstanding bespoke joinery service.

Fire your imagination.

The more individual your requirements are, the more **MOprojects** is your ideal partner.
